National Commission... 30,171.75
The players will not share in the receipts of any more games.
The melon, worth \$162,927.45, will be cut 60 per cent. to the winners and 40 per cent. to the losers, which will give \$97,756.47 to the players winning the series and \$65,170.98 to the members of the losing team.

If Boston wins, the share of each player in round figures, with twenty-six eligible, will be \$3,759. If Brooklyn gets the small end, the players, with twenty-two eli-gible, will earn \$2,962. If by chance Brooklyn wins, the players would carry off \$4,443 each.

EVERS TO REPLACE TINKER AS LEADER OF CHICAGO TEAM

New York, Oct. 12-John J. Evers slated to succeed Joe Tinker as manager of the Chicago Cubs. When the Cubs dropped their fourt straight game to the White Sox-in the Chicity series last week, the passing of Tinker was unofficially confirmed by friends of Owner Weeghman, who was bitterly disappointed.

Evers, who is attending the world's eries, admit that he is ready to take the position. He says that arrangements have been made to secure his conditional release from the Braves. and that he expects to sign with the Cubs some time this fall. Evers, it will be remembered, was appointed manager of the Cubs to succeed Frank Chance. He was summarily discharged by Charles Webb Murphy in February, 1914, whereupon he was secured by the Braves, who won the world's title that year. Evers is through with the game as a player and is anxious to get away from Boston. As manager of the Cubs his friends say that he will cease his trouble making on the ball field.

PITCHING SKILL IS ONE OF THE MAIN FEATURES OF THE WORLD'S SERIES

Boston, Oct. 12-Although it was predicted before the world's series started that pitching would be the most important factor in the big games, few thought there would be so many upsets in the twirling ranks. The lambasting Carl Mays received in the first Brooklyn game was a surprise as well as the walloping Shore got in the opening engagement in

Ruth ran true to form in his first tryout, however, and Smith pleased the Brooklyn fans by his clever exhibition. Although Marquard did well in his first start he was forced to quit in Wednesday's encounter. On the whole the Boston flingers, as was expected, have made a better showing than the Brooklyn boxmen.

The match that drew the gallery yesterday --- that between Walter Hagen of Rochester, Metropolitan and Western open champion, and big Bob McDonald of Buffalo. Hagen won by 3 up and 2 to play, and like Macfar-lane reserved his energies for a final drive, on the last nine holes. In the morning McDonald led by 2 up, and it would have been 3 up had not Hagen holed a full mashle shot for a 2 on the 382 yatd seventeenth, a feat which delighted the crowd. When they set out n the afternoon Hagen got one hole back by holing an eight foot putt for a 3 on the first, and squared the match on the seventh, where he made another fine 3. The sixth hole, however, was a real joke, for both golfers drove two balls out of bounds before they nanaged to get straight shots.

At the turn Hagan should have been 1 up but a stymie robted him of a win, and his followers groaned when an-other stymie gave McDonald the tenth, The two bits of ill luck evidently stirred Hagen to vaster efforts, for he g . a 3 on each of the next three holes.

Harvard's Reign Over

A writer in the New York Globe has figured out that Harvard's reign in the realm of football is about over and that the Crimson will descend to the bottom with a loud crash this mastery has continued so long that ac-cording to the law of averages a change is due. A forecast of this was seen last Saturday when Tufts took the ment. He probably won't be able to Crimson eleven into camp.

A few years ago Harvard was sweeping everything out of the way, but Coach Haughton had such stars as Brickley, Mahan, Hardwick and Trumbull to build around. There appear to be no wonderful players in sight this eason so even the great 'Haughton coaching system may not avail.

Carrigan's Good Work

In addition to being a remarkably elever manager Bill Carrigan of the Red Sox can also play a good game yet. He handled Leonard well yesterday after the southpaw got off to a bad start. At the bat Carrigan showed he was there in a pinch by getting two hits, one of which drove in a run.

Tad Jones Cured of Fumbling Kicks When Coach Kept Him In

Charles E. Parker of Boston, in a interesting article on the subject of encouraging football players, tells several interesting stories. A Yale quarterback in a Yale-Army game muffed punts repeatedly. Jack Owsley, in charge of the team, was asked why he did not take the man out. "Because," said Owsley, "if I did

I would spoil a promising back." During the intermission Owsley thus addressed the depressed backfield man: That's all right, my boy. Just keep trying. You're not accustomed to playing punts in this open background where you get the ball against the sky. It mixes you up. You'll get used to it next half; don't let it bother

He did get used to it. He played a great game and led the Yale offence to victory over the Cadets. Later he was an all-American quarterback. He was Tad Jones.

GAFFNEY WILLING TO BUY BROOKLYN CLUB, HE DECLARES

New York, Oct. 12-James E. Gaffney, former owner of the Boston National League club, yesterday entered the field for the purchase of the Brooklyn club. Gaffney made a flat offer to Charles H. Ebbets before the game yesterday, but he would not disclose the price.

Gaffney would like to buy Ebbets' interest in the c'ub rather than the entire club, for he made known that he would like to be associated with the McKeevers in the promotion of a basevall team. Gaffney's bid is understood to be less than \$2,000,000 the price at which the owners would

Britain's Roman Walls.

Agricola's walls were built about th year 80 to defend Britain from the Picts and Scots. The first extended from the Tyne to the Salway Firth (eighty miles), the second from the Firth of Forth, near Edinburgh, to the Firth of Clyde, near Dumbarton (thirty-six miles). The former wall was renewed and strengthened by the Emperor Hadrian about the year 120 and by Severus about 208. Tourists to England and Scotland may still see many remains of these ancient walls, particularly of the southern one. In many places the foundations are still intact, with here and there a piece of the wall itself, evidencing the faithfulness with which they were built.

Shakespeare's Name. Concerning the spelling of his name,

it is certain that Shakespeare himself was none too certain and evidently indifferent on the matter. In his will he spells his name both "Shakspere" and "Shakespeare," while in the council book of Stratford on Avon, where his father's name occurs sixty-six times, it is spelled in no fewer than sixteen different ways, the commonest being one which has never been generally adopted-namely, "Shaxpeare." is "Shakespeare," though Professor Dowden always maintained that it should be "Shakspere" and so spelfs it in his book, "Shakspere-His Mind and Art."

Peronne, the important railway junction in France, has a very long history and was once the seat of a celebrated monastery founded by the Irish monk St. Fursy in the seventh century. Charles the Bold of Burgundy captured the town in 1465, and when Louis XI, of France came thither to treat with him he imprisoned that monarch for two days in the castle and forced him to sign so disadvantageous an agreement that the tame jays and magpies, we are told, were taught to cry "Peronne" and "Perette" in deri-sion of the king's weakness. The crafty Louis, however, bided his time and re-took Peronne in 1477.—Westminster

Fancy Diving. Probably no form of athletic exercise is so full of thrills for the spectators and so remarkably fascinating for the

athlete as is fancy diving. The dives are not so very hard for the average young person to learn, and the plain front and back dives are really very simple. Next to the great one in Egypt, it is the best known now of his many Ajexandrias, which were dotted about wherever he went in Asia. There were among them Alexandria ad Caucasum, apparently northeast of Kabul; an Alexandria close to ancient Troy; Alexandria in Arils, probably Herat; Alexandria in Arachosia, probably Kandahar, and Alexandria ad Janartem, perhaps near Khodjend.
